

*First Announcement*

# XAFS16

## Satellite Meeting

DESY, Hamburg, Germany  
21 – 22 August 2015

# Satellite Meeting

## Data acquisition, treatment, storage – quality assurance in XAFS spectroscopy

Several meetings and workshops in the past addressed the topic of quality assurance in XAFS spectroscopy. The latest of them was the Q2XAFS workshop in Tsukuba, Japan in December 2011. **The upcoming Satellite Meeting** is intended to give an overview about the current status and to continue the discussions about quality management systems in XAFS spectroscopy.

### Tentative list of topics:

- Spectra evaluation
- Software developments
- Data storage / status of the HDR-initiative
- Archiving and presentation of EXAFS data
- Instrumental developments / Standardisation
- Special demands of industrial applications
- ...

Participants will also have the opportunity to visit the new EXAFS beamlines in the PETRA extension which are expected to be in the commissioning phase at the time of the workshop. If you have questions or suggestions please contact the organisers: [edmund.welter@desy.de](mailto:edmund.welter@desy.de)

Travel time between Hamburg and Karlsruhe the place of the main conference is about 4.5 h using the highspeed train connection via Frankfurt.

Information about the workshop and the main conference can be found on the conference website:
